

Department of Zoology

Name of the Activity- Extension Activity

Title of the event: Lab Visit to Zoology Lab, mLAC

Day & Date: Tuesday, 16th January 2024

Time: 2.30 pm- 3.30 pm

Mode: Offline

Venue: Zoology Lab II

Resource Persons:

No. of Participants/ Beneficiaries: 01, Pranav Vikas, a mild autistic student

Brief summary of the activity:

Department of Zoology, mLAC organised a one-day lab visit to Pranav Vikas, a mild autistic student. The student was very keen on observing the various groups of organisms that are available in Zoology lab and Museum. The session was headed by Ms. Bhavya B, faculty of Zoology who explained the types of organisms and importance of them to the ecosystem. The student was guided to have an insight on all the specimens that were arranged for the visit.

This activity marks an important event to the department as it takes pride in hosting a session to a special student and tried to inculcate the importance of organisms to the ecosystem their role and importance.

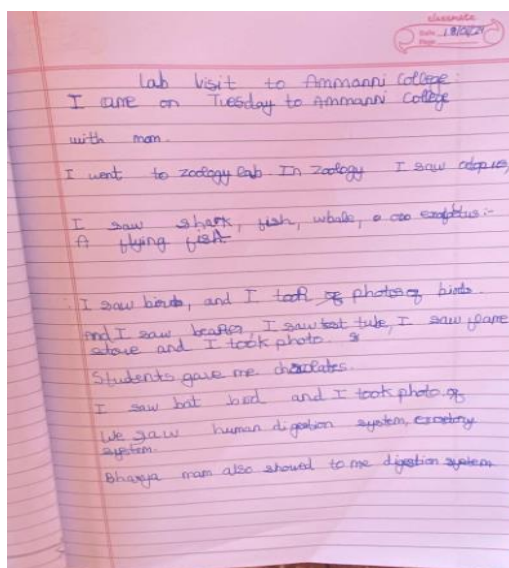

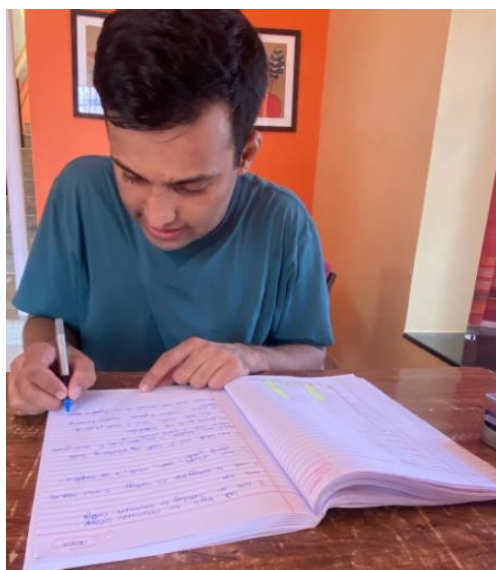

Formal feedback was taken from the student and his mother who was present throughout the session.
