

Name of the Activity: **Students exchange Activity**

Title of the event: Practical class on Mendelian genetics- Calculation on Gene Frequency in a Population Sample

Day & Date: 09-06-2023

Time: 10- 12

Mode: Offline

Venue: Maharani Lakshmi Ammanni College for Women Autonomous

Resource Persons: Ms. Bhavya B, Asst. Prof, Dept of Zoology

No. of Participants/ Beneficiaries: 19 Students from III B.Sc CBZ

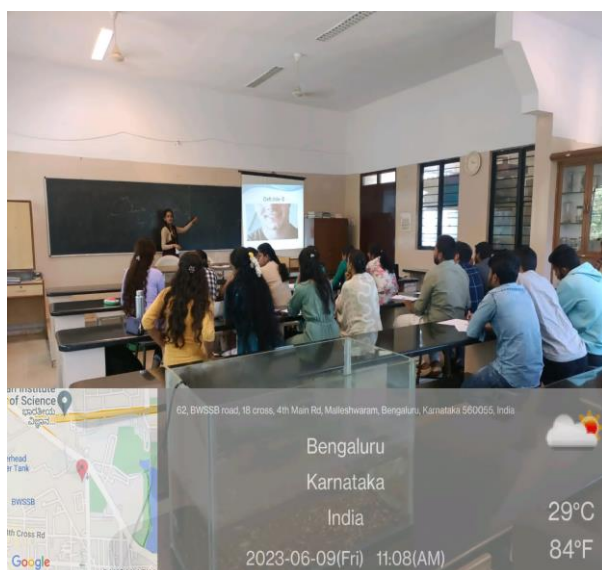

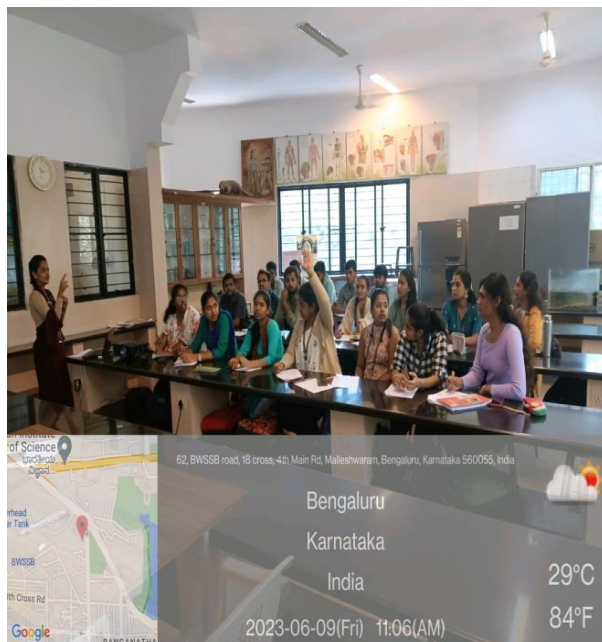

Brief summary of the activity:

As a part of MoU, Student's exchange programme was organised in Zoology lab in which practical were organised titled- Calculation of Gene Frequency in a Population Sample. Students were made to analyse the different traits and discussion was made to analyse if the traits were dominant or recessive. Percentage of the dominant and recessive traits among the students was calculated. The session was filled with discussion among the students.
